TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), TypeScript
- **Frontend:** React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive & Mobile-First Design
- **State & Data Fetching:** Redux, Context API, TanStack Query (React Query), REST API Integration
- **Authentication:** Firebase, Clerk, Auth0
- **Tools & Platforms:** Git, GitHub, Postman, Vercel, Netlify, Render

WORK EXPERIENCE

Frontend Developer — I-next Web Technologies Pvt. Ltd. *Apr 2026 – Present | Chandigarh, India*

- Developed and maintained ERP-based internal web applications and B2B platforms using React.js, TypeScript, Tailwind CSS, HTML5, and CSS3, supporting 8+ enterprise modules.
- Built 15+ scalable, reusable React.js components for ERPAG (enterprise workflow platform), improving UI maintainability and reducing component re-render cycles by 25%.
- Optimized ERPAG dashboard modules using memoization and lazy-loaded routes, reducing initial bundle size by ~30% and improving perceived load speed.
- Integrated 20+ REST APIs to power interactive dashboards, user management, orders, and reports across Aspice Affair B2B solutions, working closely on Node.js/Express endpoint contracts.
- Collaborated with a cross-functional team of 5+ backend developers to ensure seamless API communication and consistent data rendering across 10+ modules.

Full Stack Web Developer — Amzsoft Innovexa Pvt. Ltd. *Jan 2025 – Mar 2026 | Lucknow, UP*

- Converted from intern to full-time Full Stack Web Developer, taking ownership of end-to-end feature delivery across frontend and backend.
- Built and maintained scalable web applications using React.js on the frontend and Node.js/Express on the backend, integrating REST APIs with database-backed services.
- Extended the Learning Management System (LMS) with new full-stack features, role-based routing, and an interactive course dashboard used across 4 user roles.

Web Development Intern — Amzsoft Innovexa Pvt. Ltd. *Jul 2024 – Dec 2024 | Lucknow, UP*

- Built a scalable Learning Management System (LMS) frontend using React.js, implementing JWT authentication, role-based routing across 4 user roles, and an interactive course dashboard.
- Collaborated in an Agile/Scrum team of 6, participating in 2-week sprint planning, daily standups, and 50+ Git-based code reviews.
- Built 10+ reusable components using component-driven architecture and responsive design, integrated with REST APIs for dynamic content.

PROJECTS

Planipro — Aspice Affair B2B Platform *Apr 2026 – Present | planipro.aspiceaffair.com*

- Built responsive, reusable React.js and JavaScript components for Planipro, a B2B enterprise platform, improving UI consistency and maintainability across multiple modules.
- Integrated REST APIs to power dashboards, order management, and reporting features, collaborating closely with backend developers on endpoint contracts.
- Optimized UI performance using lazy-loaded routes and memoization, ensuring smooth, cross-browser-compatible user experience.

Qalb — Real-Time Dating Web Application *Jan 2026 – Jan 2026 | qalbsoulmate.com*

- Built 100% of the frontend from scratch using React.js, TypeScript, and Tailwind CSS with a scalable, component-based, mobile-first architecture.
- Implemented Firebase Authentication (email/password + mobile OTP), securing 100% of user sessions from onboarding.
- Built real-time chat and meeting features using Socket.io, enabling instant message delivery and live interactions.
- Integrated 30+ REST API endpoints for profiles, matches, chats, and meetings, and managed global state via Context API across 5+ feature modules.

EDUCATION

B.Tech — Information Technology, Ambalika Institute of Management and Technology, Lucknow, Uttar Pradesh (2021 – 2025)

CERTIFICATIONS & ACHIEVEMENTS

- Web Development Certificate — GeeksforGeeks (2024) | Solved 180+ algorithmic problems on LeetCode, strengthening DSA proficiency.
