

Professional Summary

I'm a Full Stack Web Developer with hands-on experience in building scalable and responsive web applications using the MERN stack(MongoDb, Express.js, React.js, Node.js). I specialize in designing and developing user-centric solutions with clean UI/UX, secure authentication, and efficient backend architecture. With a solid understanding of both frontend and backend technologies, I create end-to-end applications from RESTful APIs to interactive interfaces. I also have a good grasp of deployment, version control with Git, and API integration. Passionate about solving real-world problems and continuously learning to stay updated with the latest tech trends.

EDUCATION

Ambalika Institute Of Management And Technology Lucknow, India
Bachelor of Technology: CGPA: 7.06 June 2021- June 2025

SKILLS SUMMARY

- Languages: JavaScript, TypeScript, Java
- Frontend: HTML, CSS, Tailwind, Bootstrap, React.js, Next.js
- Backend: Node.js, Express.js
- Databases: MongoDB
- Platforms: Visual Studio Code, IntelliJ IDEA
- Deployment Tools: Vercel, Render, Netlify, Git, GitHub

WORK EXPERIENCE

Web Development Intern

Amzsoft Innovexa - Lucknow (on-site) | July 2024-Dec 2024

- Successfully completed 6-month intensive web development internship focused on the **MERN stack**.
- Gained hands-on experience building **full-stack applications**, applying modern web development best practices.
- Built a scalable Learning Management System (**LMS**) using MERN stack with secure authentication and REST APIs.
- Built and deployed **3+** full-stack applications using the MERN stack including LMS, real estate, and food ordering platforms.
- Collaborated in an Agile team to implement responsive UIs and RESTful APIs with **95%** test coverage.
- Enhanced state management in React apps using Context API improving component performance, by **20%**.

Full Stack Web Development Intern

LzyCrazy pvt ltd - Bangalore (remote) | Dec 2025-Present

- Current pursuing a Full Stack Web Development internship at LzyCrazy pvt ltd, working on real-world production projects.
- Contributed to building **SkillUp (Learning Management System-LMS)** and a **Dating Web Application** With 100% responsive UI from scratch.
- Implemented secure authentication, role-based access control (RBAC), and dynamic dashboard to enhance user experience
- Collaborated in an Agile team to implement responsive UIs and Git-based version control.
- Enhanced state management in React apps using Context API improving component performance by **20%**.

E-Learning - Learning Management System | [GITHUB](#) Feb 2025 - Mar 2025

- Developed a **web application** using the **MERN stack** (MongoDB, Express.js, React.js, Node.js) with a modular and scalable architecture.
- Implemented secure user authentication and role-based access control using Clerk, enabling a 100% success rate in protected route access for over 50 test users.
- Integrated Stripe Payment Gateway to handle course payments and subscription securely, ensuring a reliable and user-friendly checkout experience.
- Built a dynamic Admin Panel to manage users, courses, and transactions with full CRUD operations, approval workflows, and performance metrics, reducing admin overhead by 40%

TastyFood- Online Food Ordering App| [GITHUB](#) Oct 2024 - Nov 2024

- Developed a full-stack **food ordering web application** using the **MERN stack**, resulting in a 40% faster ordering process compared to initial prototype.
- Implemented cart management, menu browsing, and a responsive UI, increasing user engagement by 35% during testing.
- Built an admin dashboard to manage orders, user, and menu items with full CRUD functionality, streamlining backend operations by 50%.
- Integrated Stripe for secure online payments, achieving a 100% transaction success rate during QA testing.
- Ensured the application is 100% mobile responsive delivering a seamless experience across all devices.

Achievements: Full stack development Certificate (GeeksforGeeks, 2024) | solved 180+ problems on LeetCode
